Testimony Intelligence is here

Prevail is your complete testimony management platform, providing innovative solutions for remote, hybrid, and in-person proceedings.

Prevail Sessions

Take more effective depositions using our tailor-made platform that includes an AI-generated Real-Time transcript and high quality video support.

Other features include integrated exhibit management and intuitive attorney work product tools that can be used on the fly.

Session Review

Why wait for deliverables? Get immediate access to a rough transcript with synchronized video and all presented exhibits.

Our added tools make it simple to search and review testimony, keep track of key statements, and even create trial-ready video clips without the need for third-party vendors.

Smarter Transcripts

We're making transcripts smarter than ever with the integration of AI-enhanced technology.

Exhibit Hyperlinking, for example, creates a direct link in the transcript anytime an exhibit is stamped, presented, or even mentioned, so you can immediately find the referenced file.
