

Industry Leaders in Document & Document Management for Over 20 Years

Who We Are

It is our mission to supply the best possible service at a reasonable cost for digital conversion of paper documents, bound materials, microfilm, and more.

Our services span numerous fields, not limited to pharmaceuticals, publishers, universities, libraries. We provide on-site service in the United States, United Kingdom, and India.

Why Choose Us

Qualified, Skilled & Experienced

We are experts in managing large projects including rare and fragile documents. Projects include Library of Congress, British Library, Smithsonian Air and Space Museum, Harvard, Yale, Princeton and more.

State-of-the-Art Digitization Equipment

Our facilities house four high-speed microfilm & microfiche scanners, as well as twenty-one book & publication scanners. Selected industrial scanners include Kodak, Canon Book2net, CopiBook, Kirtas, nextScan & Mekel.

Precise, Rapid Delivery

We are committed to balancing excellent quality with a speedy turnaround at reasonable prices.
